Facility Clearance Common Application Errors Fingerprinting

SPONSORSHIP FOR A FACILITY CLEARANCE

A facility clearance = cleared company.

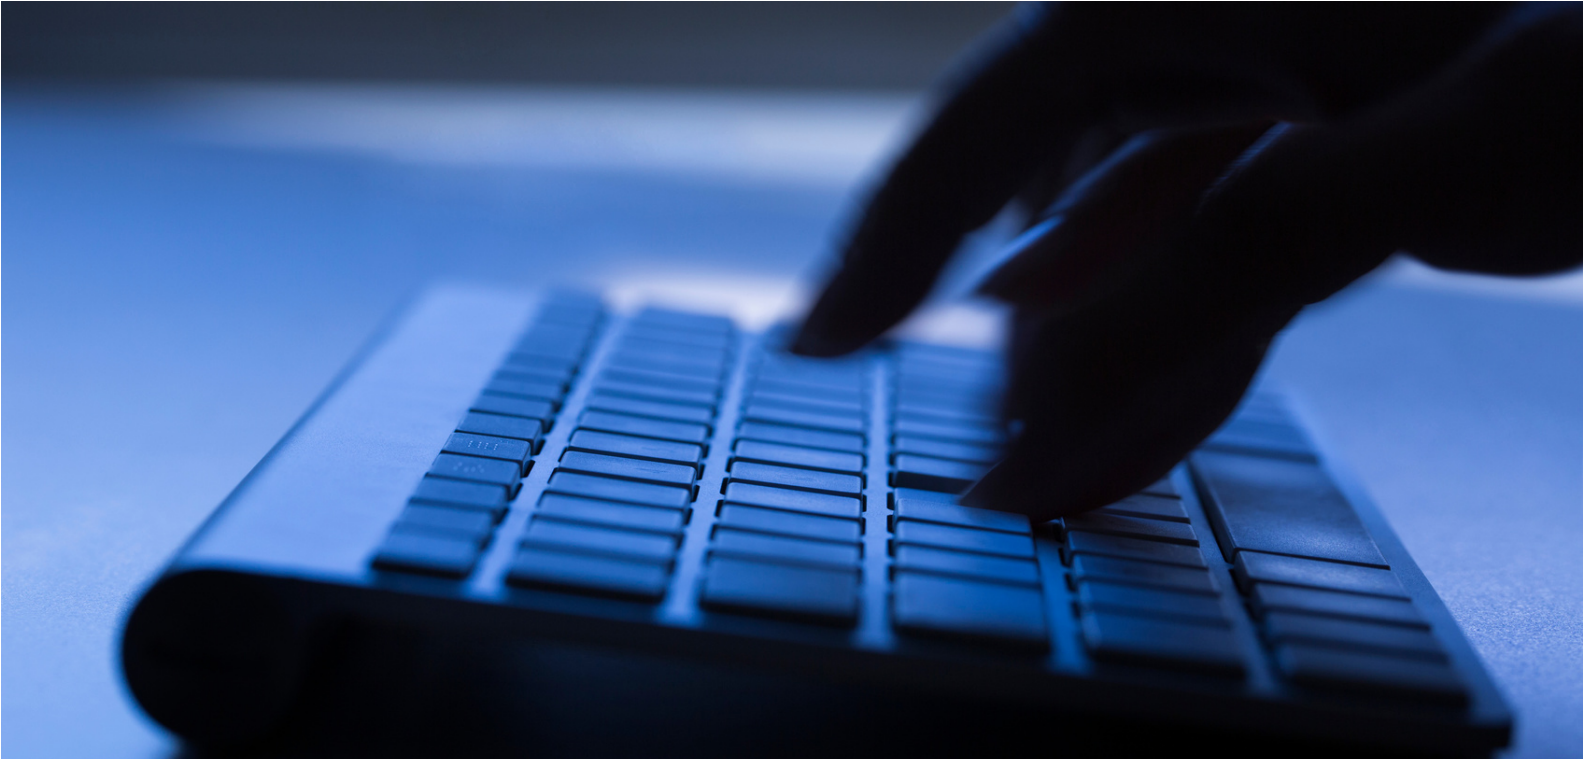

If a company has a contractual need to obtain a facility clearance, only the government or another cleared company can sponsor them.

Obtaining a facility clearance does not always mean a company can store and process classified data. Contact us to learn more.

ABOUT FSO-SERVICES

Our services are centered around proven policies, procedures and training that deliver compliance with government security requirements.

To learn more, visit our new website: www.fso-services.com.

COMMON SF-86 ERRORS

When completing your application for a clearance, be sure to list residences and employers without any gaps. When listing people who knew you well, list people who knew you on a social level, not family or coworkers. Additionally, list all foreign contacts who met the criteria. We answer many questions about applications for clients – let us know how we can help.

FINGERPRINTS FOR A CLEARANCE OR CAC APPLICATION

Fingerprints are required for a personnel clearance application. They must be submitted electronically to SWFT using the correct company information for the applicant's employer. We can help people across the country obtain fingerprints, scan them, and upload them to SWFT. Learn more about our services here: <https://fso-services.com/fingerprinting-2/>
