SEPTEMBER 2022

## Investigation Guidelines Foreign Travel Reporting Threat Awareness

### NEW INVESTIGATION GUIDELINES

Timeframes for periodic investigations have changed. Anyone with a clearance will be required to undergo a new investigation every five years. The date is based on the last investigation date or enrollment date in continuous evaluation, whichever is later. Here are three key points:

- Periodic reinvestigations will not be conducted for the NISP contractor national security population.
- An updated SF-86 (e-QIP and releases) will need to be submitted every 5 years, regardless of level of eligibility.
- An individual enrolled in CV, regardless of reason (Other/Deferred) is compliant with the Continuous Vetting requirements.

## **FOREIGN TRAVEL REPORTING**

CFR NISPOM has new requirements for reporting, tracking, and delivering threat awareness for employees traveling outside of the United States. FSOs must be aware of how to collect and report foreign travel and when to engage DCSA for threat briefings of employees traveling to high-threat countries. Here is what you need to know: [https://www.dcsa.mil/mc/isd/sead3\\_foreign\\_travel/](https://www.dcsa.mil/mc/isd/sead3_foreign_travel/)

## **SENIOR MANAGEMENT THREAT AWARENESS**

SEAD 3 requires the active involvement of senior management in your security program. FSOs should regularly meet with senior management officials to brief them on threat vectors. You must also train your employee base to be aware of these threats and report them as required. Learn more here: <https://www.dcsa.mil/mc/ci/resources/>
