

FSO SERVICES NEWS

MAY 2023

We help clients maintain a simple and compliant security program.

TRANSITION TO NBIS

The transition to NBIS is underway! NBIS will become the system of record for all personnel vetting for national security positions.

FSOs should be submitting access requests to have their accounts set up, but the process can be confusing. In an effort to provide value to the industry and our clients, we have put together a step-by-step guide to help.

You can access the guide on our website at this link: <https://fso-services.com/step-by-step-guide-to-nbis-access/>

ABOUT FSO-SERVICES

Our services are centered around proven policies, procedures and training that deliver compliance with government security requirements.

NISS/DISS Record Keeping

DCSA is the largest security agency in the federal government dedicated to protecting America's trusted workforce and trusted workspaces.

Each year, DCSA services over

Maintaining your facility and personnel clearance records is at the top of the list of FSO responsibilities. A thorough self-inspection includes reviewing all documents to find and close any gaps before your next DCSA assessment. FSO Services can help audit your industrial security program, provide guidance and recommendations, or handle all your industrial security needs so you can focus on bidding, winning, and executing.

UP-TO-DATE SYSTEMS AND RECORDS

A defined process for verifying that all systems where FCL and PCL data are stored are up to date is necessary to achieve a high rating on your next audit. DCSA systems continue to evolve, and FSOs need to be aware of the changes, the impact on their records, and the process to access the latest systems of record to validate accuracy. If you have not visited [DCSA's new website](#), you should head there to find the latest links in the site's header.

MA Air National Guard Case Study

Examples of the detrimental impact of insider threats continue to surface.

Recently, a Massachusetts member of the National Guard was arrested and charged with "unauthorized removal, retention and transmission of classified national defense information".

These events further highlight the importance of a strong insider threat awareness training program. We help clients with insider threat training and self-inspections to verify effectiveness.
