

FSO SERVICES NEWS

OCTOBER 2023

We help clients maintain a simple and compliant security program.

e-App Replaces Equip for Clearance Investigations

After nearly 20 years, eQIP has been replaced by NBIS e-App. The new system aims to streamline background investigations and continues DCSA's push to consolidate systems with a modern, unified infrastructure. FSOs will use NBIS to manage investigations, and applicants will use e-App. More information is available [here](#).

We help companies ensure they are enrolled in NBIS and their clearance applicants are supported.

ABOUT FSO-SERVICES

Our services are centered around proven policies, procedures and training that deliver compliance with government security requirements.

To learn more, visit our new website: www.fso-services.com.

DCSA Call Center Numbers Have Changed

FSOs and applicants must be sure to contact DCSA at the new support numbers they have. We have provided guidance on our website: [click here to learn more.](#)

Completing Your Annual Self-Inspection

As we approach the end of the year, cleared companies must be sure they have completed at least one self-inspection this year. A thorough self-inspection helps ensure your security procedures are up-to-date and you meet all NISPOM requirements. Contact FSO Services if you would like a full review of your security compliance and to achieve superior audit results.

FAQ

Questions About NBIS, Check the FAQ

DCSA has provided information about frequently asked questions related to NBIS. You can access the FAQ from the NBIS page on their website: [click here](#). If you do not find the information you need, contact FSO Services to learn more about how we help companies with their facility and personnel clearance needs so you can focus on your contracts.
