

FSO SERVICES NEWS

MARCH 2024

We Help Clients Maintain a Simple and Compliant Security Program.

Florida Industrial Security Working Group (FISWG)

If you have not attended any of the FISWG events, you should consider attending. The next one will be May 1 in Orlando. You can learn more about the group here: <https://fiswg.research.ucf.edu/>. Education and presentations center around challenges we are all facing in industrial security, updates from government agencies, and helpful tips and tricks.

ABOUT FSO-SERVICES

Our services are centered around proven policies, procedures and training that deliver compliance with government security requirements.

Audit Checklists Drive Success

Nobody likes audits. However, the industrial security industry faces audits and assessments regularly to help ensure compliance with NISPOM and the protection of our nation's secrets. We have found that a sound process that includes checklists for review before an audit leads to superior results and a robust security program. Our client guidelines are helpful tools and lists to leave no stone unturned and deliver a superior assessment.

The Latest ISL Released by DCSA

DCSA released the latest industrial security letter (ISL) on February 1, 2024. ISL 2024-01 covers guidelines around the use of cloud computing services. You can access and read the ISL here: <https://www.dcsa.mil/About-Us/News/Article/Article/3663047/dcsa-issues-isl-2024-01-use-of-cloud-service-offerings/>. Let us know if you have any questions about your security needs and how we can help.

FSO Services Celebrates Women FSOs and ISSMs

Women are helping secure our nation's information and security and we salute all who are involved in the industrial security space. As we celebrate Women's History Month, we offer our sincere thanks and praise for all women FSOs and ISSMs doing their part to keep us safe and strong as a nation.
